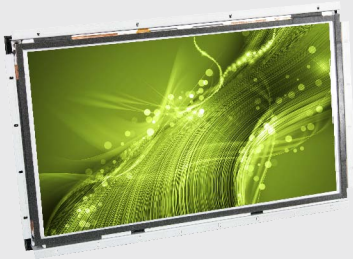
- High Brightness and Contrast Ratios
- Public-Display-Grade Panel



V3253D-U

Open Frame

Dispersive Signal Technology

USB Connection

The V 32" Open Frame Display is one of TouchSystems' more budget-conscious displays, but the price tag is perfect for the person entering the touch technology arena. The display itself is LCD, ensuring crisp images and brilliant colors. It also can be mounted on the wall or embedded in a table top, which allows it to be featured in a variety of environments and venues.

Retail
The V 32" Open Frame Display provides a selection of inputs, allowing for better management of one's digital signage.

Medical
The V 32" is built to last. Its commercial-grade design is meant to account for high-touch activity.

Hospitality
The display's high brightness and contrast ratios will present images in their full, brilliant glory.

Restaurant/QSR
Use the display to announce new menu items, specials, or the newest foursquare Mayor.

Specifications
